PRICE LIST No. 53

The YORK NURSERIES

500 Acres

During certain periods of the year there is usually a lack of rain-fall when irrigation may be of great benefit to all kinds of crops. We have ample facilities for supplying water when it is needed, consequently we are able to grow normal well developed stock regardless of weather conditions.

This Price List includes the best of the older varieties and the cream of the newer sorts. We feel sure that they will give satisfaction to every customer. We grow and can furnish other varieties than those named, and solicit correspondence regarding the same. The ones listed have been found by test to be well adapted to this latitude, and are general favorites.

TRANSPORTATION CHARGES—We will prepay charges on all orders amounting to \$3.00 or more when trees are included. If the order contains no trees we will prepay transportation charges regardless of its size.

REPLACEMENTS—Anything failing to start to grow will be replaced at one-half price during the first year. No free replacements except when stock is not satisfactory upon arrival and the customer notifies us immediately, then there is no charge for immediate replacement.

GUARANTEE—We warrant our nursery stock true to name, with the express understanding that should any not prove so, we will refund the money paid or replace it with other stock, but are not liable for damages beyond this. We pack carefully and ship all plants in good condition.

REMITTANCE—Please remit by money order, bank draft or your personal check.

EVERGREENS

We grow a complete line of specimen evergreens. Here you will find one of the largest evergreen plantations in the middle-west. It will pay you to drive to York and make your selection. If you are unable to come, please let us know what you are interested in and we shall be glad to quote you our lowest prices.

MODERN EVERGREENS

TO OUR CUSTOMERS:

When your teeth need attention you go to a dentist. If legal advice is needed you consult an attorney. When your car fails to run you take it to a mechanic. This is only proper because you know a specialist can render the service you demand. Please bear in mind that we are specialists and handle our stock from seed to maturity, and safe delivery to you.

In addition to the fine quality stock we furnish, we also render valuable service by furnishing any information desired. Expert information is always free for the asking. Realizing that life in trees is precious we furnish complete instructions relative to its preservation. Our guarantee is very liberal.

Kindly remember that there is just as much difference in the tree family as there is in the livestock family. Good stock will always pay good dividends, do not be satisfied with any thing else. Due to the fact that we have been conducting business in one place for more than a half century, is evidence that our customers have been getting good quality stock at a reasonable price.
